Farmers' Hotel Burns to Ground

Fire which started in the Farmers Hotel Saturday morning, completely destroyed it and threatened to wipe out the entire business section of Carlstadt.

The blaze had its beginning in an overhead stovepipe from the range in the hotel kitchen. The pipe was through the ceiling of the first floor and connected with a brick chimney on the second storey. Around the pipe, the paper and wood caught fire and got a big start before it was noticed by either Mr. Scott, proprietor, or Chet Brown. With such water as was at hand, they tried to extinguish it, but with no success. The flames spread between the ceiling of the first storey and the floor of the upper—so that the men gave up all hopes of saving the structure and attempted to remove the furniture and clothing.

In the meantime, Frank Shields saw the smoke. Together with V.E. Starr, he rushed to the fire bell, and gave the alarm. Almost to a man, the citizens turned out, and there was an upwell fight awaiting them.

Fanned by a strong wind from the east, the domed hotel was a roaring furnace, throwing out burning showers of sparks which, lighting on flammable stuff, kindled numerous flames in the path of the wind. It was quickly realized that the outcome of the struggle depended on saving the Swanby store building, directly opposite the hotel. If this were to go, there would have been no hopes of saving any of the entire block, in which are located Thompson's market, Anderson's blacksmith shop, Scollard's and Hryx's implement warehouses and home, the postoffice, Starr's lumber yard and Hillyard's harness shop—and then the fire demon would have had a clean sweep, at the rest of the town.

So every possible effort was centered on the flame-swept Swanby building.

With the men on the fire engine working like Trojans, a stream was

LOCAL AND GENERAL

Subscribe to the Carlstadt News.

W. G. Scollard was a passenger to Calgary on Monday, to spend the week.

C. A. Thomas is laid up at his home north of Carlstadt, as a result of a runaway last week. He refuses to allow a doctor to be called in, it is feared that several bones are broken.

The position of baggage man has been abolished at the Safford C.P.R. station, so that Geo. Shield is again at home.

Mrs. J. Y. Clark, spent three days of last week in Calgary, with her husband, manager of the Carlstadt Co-operative Realty Company, who is right in the midst of the oil swirl.

Some apprehension is felt as to John Bell, who was taken to the Medicine Hat hospital last week. The Bell family is moving to the Hat and will take the sick man from the hospital to their home there.

The next meeting of the "Y" is on Thursday, July 2nd at 2 o'clock in the Free Methodist church. A full attendance is hoped for.

The Fertile Flats U. F. A. picnic yesterday was a great success. A full report of it must be left over until next issue, owing to the closeness of press day and to the fact that the News reporter has not yet recovered from the big dings.

Several charvaries for the newly weds, Mr and Mrs V. E. Starr have been planned about town, but all have been nipped in the bud by the timely help of cigars and ice cream.

Mrs. O. J. Wood and children and her sister, Mrs. Frost, left on Saturday evening for a lengthy stay in Ontario.

Last Thursday, John Clark had a bit of straw or chaff blow into his right eye. He was unable to remove it and suffered great pain. Finally on Monday evening, he left for Calgary, to have a specialist remove it.

The contract for the building of the Royal Schoolhouse has been given out. Mr. Olsen of Safford, was the successful bidder.

Carlstadt's Big Day July 13th

Arrangements are now under way for Carlstadt's Big Day July 13. Committees are working hard and definite announcements will be made in a few days with posters.

To start with, the championship baseball of the district is to be decided. Tripola and Fertile Flats will probably be the contenders.

Then there is to be football—Carlstadt against all comers, which also will be of great interest. Also there are to be foot races, high jumping, broad jumping, tug-of-war, horse races, bucking, etc., etc.

The merchants and business men are untiring and are going to offer valuable prizes that will bring a big crowd.

A dance will be held in the evening.

Watch for full announcements and plan right now to be present.

New Homestead Regulations

New homestead regulations went into effect this week, which make it possible for the homesteader to obtain his patent by substituting stock in lieu of breaking 30 acres of land called for in the old regulations. The patent for a pre-emption may be obtained in three years, instead of six, as is the case in the old regulations. We understand, however, that the \$3 an acre is still to be paid.

A. Heinbach and three associates of Medicine Hat, were in Carlstadt Sunday, looking over their oil leases. They are very anxious to see drilling commences at once.

The News office windows have been cleaned.

Sturday morning, at the Orton Foughty farm, seven miles north east of town, a fire was started by a cigarette among straw and burned right up to the barn, before it was discovered. Water was handy and the flames were put out with no damage to the barn.

What has become of the trunk road, which the provincial government promised to build into the north country??

Notice to U. S. A. Subscribers

Many of our subscribers in the States have allowed to subscriptions to the News to get in arrears. We would respectfully urge them to settle at once.

Assessment Notice

Notice is hereby given that the assessment roll of the Village of Carlstadt for the year 1914, has been prepared and is now open for inspection at the office of the secretary-treasurer of the village, from 10 o'clock in the forenoon to 4 o'clock in the afternoon, on every day which is not a public holiday, except Saturday (and on that day from 10 o'clock in the morning to 12 o'clock noon), and that any ratepayer who desires to object to the assessment of himself or of any other person, must within thirty days after date of this notice, lodge his complaint in writing at my office.

Dated this 11th day of June 1914
V. E. Starr, Assessor.

Million Dollar Rain Falls

Everybody's doing it! Jumping for joy. Fourteen hours rain is something to be joyful about. The bumper crop that has been wished for, is now within sight and will loosen the money stringency for the farmers like the oil boom did for Calgary.

THURSDAY, JUNE 25TH, 1914.

A hundred things happen every week, says an exchange, that the newspaper man never hears about. He does the best he can, keeps his eyes and ears open, but he is only a human being, not omniscient, omnipresent, or endowed with the gift of fore-knowledge, and therefore cannot foretell the occurrence of an event. Yet you often wonder why this thing, or that thing, was not published. An enterprising newspaper always does its best to give all the news and is always glad to publish any item of general interest. So before you criticise an editor be sure that you have done your part in furnishing the particular item of news, that you failed to find in the paper. Either send the news to the editor, or invite him to come where the news is.

E. C. Hgvr, Robt. Elliott and W. Walker, took in the sights at Jenner last week.

HIGH VALLEY.

Mrs J. B. Johnston and son Ralph had the misfortune to lose their driving horse, while visiting with Mrs L. Brennar. After some worry and trouble he was found at their home in High Valley, thirty miles north east of Jenner's.

Walter Greenwood unfortunately put his finger out of joint one day last week.

T. E. Nunemaker has purchased a new windmill.

J. B. Johnston went to Empress Wednesday, returning Friday night. He reports that the town is growing rapidly.

Mrs Lisle Buxton has been on the sick list for the past few weeks, but is reported improving at the time of writing.

C. V. Nunemaker and son were Carlstadt visitors, one day last week.

The deciding base ball match between Peckles and Jenner, was played on Saturday, on Jenner's ground. It was a close game, the score being 15 to 11 in favor of Peckles. What's the matter with the Jenner ball team? Nothing! What's "nothing" Jenner?

High Valley School, J. L. Brown teacher, has closed for the summer.

J. B. Johnston made a business trip to Carlstadt, one day last week. The boys team of base ball from High Valley played the River Bend boys on Saturday. River Bend were the victors.

A number from High Valley were watching the interesting ball game at Jenner Saturday.

Crops are looking much better since the rains. A small local shower was enjoyed Sunday morning which will help them.

Walter Greenwood accompanied J. B. Johnston to Empress to visit his father.

The wind storms have been making life disagreeable in High Valley for the last week.

Mrs J. B. Johnston returned from a visit to her daughter last Tuesday.

Fred Goddard was in the High Valley district Saturday.

T. E. Nunemaker called on Mr. Buxton, one day last week.

ENGLISH CHURCH

There will be service next Sunday

Last Friday, June 19th, Mrs F. Jordan Basken of "Sunnyholm" entertained at her residence, by giving an afternoon tea and musicale from 4 p.m. to 6.30 p.m., in honor of Mrs Frost of Hanover, Ontario, who was the welcome guest of her sister Mrs. Wood. The affair was also a farewell to Mrs Wood, who with her family left the following day for an extended visit to her parents at Hanover. During the afternoon, Madames Wood and Frost and Miss Hippey delighted the guests with their vocal and instrumental selections, Mrs Guy Hamilton and Miss Florence Stuart were equally pleasing in their recitations. The rooms presented a very pretty appearance, the color scheme being crimson and white and were tastefully decorated with crimson and white carnations and asparagus ferns. Miss Hippey and Miss Florence Stuart very ably assisted the hostess with the ice cream lemonade and cakes. The invited guests were Madames Wood, Frost, Wagner, Johnson, Drummond, Love, McEwen, Woolven, Colter, Cole, Scottard, Stuart, Hamilton, Hely, Garvey and the Misses Hippey and Stuart.

POLONIA POUNDINGS

Clyde Arnold attended the Stampede at Gleichen.

A number of the farmers around here were working out their road tax, work being done along J. B. Gray's and the correction line.

Carl Trivot was calling at the Hill residence Sunday.

Mr and Mrs J. B. Gray and Mr and Mrs Charlie Gray and family spent Sunday with C. A. Wallace and sister.

Mrs L. C. Furey called on Mrs Jonnie Zimmerman Sunday.

Miss Minnie Gray spent Sunday with Mrs Tribe of Peeries.

A number of young people of this district attended the dance at Lake View on Friday night. All reported having a fine time.

Mrs Earl Cole spent the week end at her home near Fertile Flats.

Miss Grant, the school teacher at Blue Grass, spent a few days at the home of A. Hill, returning to Mr Laid's on Sunday evening.

Bernice Zimmerman spent a few days with Ruth Monahan.

Melvin Hunter was a visitor at Jenner last week.

Miss V. D. Cutsforth spent Tuesday evening with Mrs Zimmerman.

Mr and Mrs C. C. Mills spent Sunday with Mr and Mrs Jack Swift.

TRIPOLA

Mr and Mrs Will Macintosh and family spent Monday with his parents.

A number of the young people from Peeries visited Tripola friends last week and took in the ball game at Brutus on Saturday.

Oh! Yes that was some ball game Saturday. It just reminded the Tripola team, of how they used to win marbles and pick apples back east. Ask Brutus for the score.

Mrs Will Truman and daughter May visited Sunday at the home of Mr and Mrs John McKibbin.

Cecil Duff spent a few days last week with the McFarlane brothers.

Some of the young folks around here attended the dance at Tide Lake schoolhouse Friday evening and all report a having had a fine time.

Mrs F. J. Conn visited the week at the home of her parents Mr and Mrs J. McKibbin.

R. Steen visited A. Birce Sunday. C. C. Hyatt made a trip to Carlstadt on Tuesday.

Mr and Mrs Watson had the misfortune of losing their house by fire on Saturday evening.

Mr E. Foxton and W. Macintosh called on J. C. Anderson Sunday.

Mrs Will Truman and daughter May visited Mr and Mrs C. Jones of Brutus, on Saturday.

D. L. McKellar made a trip to Carlstadt on Monday and brought home a new buggy.

PEERLESS PLASHINGS

Thomas and George Tribe went to Carlstadt on Tuesday.

Mr Kennedy and son are digging a well.

Arthur Ayres went to Carlstadt last week.

George Louis is plowing for R. S. Tribe.

Billy Bishop went to Carlstadt on Saturday.

J. W. Young took a load of pigs last week.

Just wait until the Peerless oil fields are in operation.

J. L. Brown and wife, of Peeries were in town this week purchasing supplies.

Eustace Harris has gone to Excell near Calgary, to assist on the grain elevators.

Geo. Lowry has moved his general merchandise stock from Tilley to Denhart, on the Red Deer River.

BRUTUS BLARNEY

According to the Lethbridge Herald, Mayor Brown of Medicine Hat, has received a telegram from Sir William Mackenzie, saying that work on the C.N.R., the Medicine Hat to Hanna line, will start in July if this is true, it will be of great benefit to the people of this district.

Roy Garbutt was a Carlstadt visitor on Wednesday.

Wesley McEwen has moved his outfit to the Bolona Farm at Polona where he has some summer fallow to do.

Dr. McEwen and a party of friends visited this district Sunday.

J. Brenaman has secured the contract for erecting the fence around the school grounds.

Allen Birce of Tripola, was a Brutus visitor on Saturday.

B. F. Berryman has been confined to the house this past week, with a severe attack of his old enemy rheumatism.

Mr and Mrs G. Potter and family of Tripola and Miss L. and E. Truman, visited Roy Garbutt.

Walter Birce of Tripola, called on Brutus friends on Sunday.

Jack Woge and Ole Sween spent the week end with Alf. Renning.

Charlie Gibener is a guest at the country home of Marshall Ballard.

Miss A. Potter, Elwin Potter and Cecil Duff, visited Roy Garbutt on Saturday.

Cris Kingwick called on Lars Kallestadt, on Saturday.

Next time you want a hair cut call on our town barber, Agnor Knudsen, in his old stand at the Sween hotel.

Roy Garbutt attended church at Tripola on Sunday and had the pleasure of walking home alone.

At the meeting Monday evening the Village Council decided to do nothing towards securing a flag or flagpole for the town lot. A steel flagpole would cost about \$80 the flag additional. The council considered that just at present, the coin of the realm was too scarce.

IN THE DISTRICT COURT OF THE DISTRICT OF CALGARY

TO

MURDOCK MCKENZIE

Defendant

TAKE NOTICE that an action has been commenced in this Court by the Atlas Lumber Company limited, against you to recover \$106.52 on a promissory note made by you to it.

You are to enter an appearance and file a defence to the Plaintiff's claim at my office by the 20th of July, 1914, in default whereof judgment may be entered against you.

D. McCOLL HARDIE

Clerk of the Court
Court House, Calgary, Alberta.

NOTICE.

NOTICE IS HEREBY GIVEN that His Honor Judge Carpenter, Judge of the District Court, has appointed Wednesday the 15th. day of July, 1914, at 10 o'clock in the forenoon at the Court House, in the City of Medicine Hat, as the time and place, for the holding of a Court for the Confirmation of the Tax Enforcement Return for the Rural Municipality of Sunny South No. 123.

Any person objecting to the Confirmation of the Tax Enforcement Return, or any part thereof, required to be present at the above mentioned time and place to state such objections, and in default of any person appearing as aforesaid the title of the said lands may be vested in the Rural Municipality of Sunny South No. 123, as provided by the Rural Municipality Act, unless the arrears of taxes and costs are sooner paid.

A. F. PIELL,

Secretary-Treasurer.

GET YOUR CANADIAN HOME

FROM THE CANADIAN PACIFIC

Wonderfully fertile land is offered for sale by the Canadian Pacific Railway Company at prices ranging from \$11 to \$30 per acre. There is no better agricultural land than this virgin Canadian soil. It is unsurpassed for all forms of agriculture, including grain growing, stock raising, dairying, poultry culture, vegetable growing, and general mixed farming! The lands are convenient to railways and markets, and are located in a land of low taxation and delightful climate.

TWENTY YEARS TO PAY

Under the Company's new policy, no land is sold to speculators, but only to those who will occupy and improve it. The terms of sale are now one-twentieth cash and the balance spread over twenty years, with interest at six per cent per annum.

ASSISTANCE TO FARMERS

Under certain conditions the Company will advance a loan of \$2500 to new settlers to be used in erecting a house and barn, fencing the land, and sinking a well. This loan is repayable on the same terms as the purchase price.

DOING BIG WORKS

URGENT ENOUGH TO BE UNDERTAKEN AT THIS PAS

New Location for the Line Will Shorten C.P.R. Route by Four Miles—Work Involves the Expenditure of Over Ten Million Dollars

In the vast amphitheatres formed by the ranges of perpetually snow-capped mountains which surround the pass of the Selkirk, modern science today is busy at work against the passive forces of nature. A tremendous conflict is being waged in the valleys on either side of the summit where the primordial has held sway for countless ages.

British and Indian hawks, by modern machinery, modern methods and a scientific organization, are combining to "conquer" the elements. Huge mammoths are scooping out earth, rock, in enormous mounds, and powerful explosives are rending the innumerable recesses of the hills to reveal the secrets of a transcontinental railway system and to permit of the onward march of civilization.

The new location for the line will shorten the route by four miles. The Selkirk is a difficult mountain range. Rogers' Pass tunneling scheme, and work and railway, the tunnel will involve the expenditure of more than \$10,000,000. The tunnel will take rank as the longest railway bore in America. The Hoanac tunnel on the New York Central is the longest at present, being just "ear" three-quarters of a mile long.

Since the Canadian Pacific railway has opened to traffic through the mountains of British Columbia it has spent millions of dollars in protecting the mountain tracks on extra locomotives used to haul the trains up the steep grades in coping with the snowfalls and the physical hazards of the route. A large force of men and a large amount of expensive equipment have been employed all the year around to clear the summit of the Selkirk. The company maintains a large stock of sleds, shops, snow plows and outfitting for service on both sides of the Selkirk range.

The railway spent two years seeking a favorable route through the Selkirk. The C.P.R. has been undertaking and relating double track in the Selkirk range since operations began in 1914.

The contractors who have in hand the tunnel scheme are applying as never before to the task of tunneling, they are projecting what is known as a "tunnel road." This is a small preliminary shaft, seven feet by nine, which will parallel the route of the main tunnel, and distant and will be bored from both ends of the tunnel. The work is done in the nature of an experiment and the same method is used in the tunneling, and mature consideration.

One of the principal reasons for the adoption of the new plan was the fact that the Canadian Pacific has had to have the big undertaking finished by December 1, 1914. The work was started in 1914 and was a half from the time the work was started. Building a passage five miles long in a little more than the ordinary way. Only a limited amount of time can be spent on the work at one time and delays constantly occur on account of blasting and other causes.

With the "plunger" bore the work will be greatly facilitated. The plunger will be excavated leading into the tunnel. The plunger is a machine used to bore a hole in the rock. It is a small machine with a long shaft, and is used to bore a hole in the rock. The plunger is a machine used to bore a hole in the rock. It is a small machine with a long shaft, and is used to bore a hole in the rock.

Another great advantage is the fact that the plunger bore will act as a ventilating shaft, enabling the passage of a current of air through two tunnels and the connecting passages. It will also serve a permanent purpose in the same connection, the ventilation of the main tunnel.

The tunnel operations have a decidedly human interest side. With perils dripping from their lightly clad bodies, the drill men may be seen continually working with their shovels and picks, paying no heed to the significance of their work.

The work is pursued in much the same way as in the levels of a mine. Stopes are driven and holes are bored with air drills. The stopes are driven and holes are bored with air drills. The stopes are driven and holes are bored with air drills.

Spanish Navy to be Reconstructed—Admiral Miranda, minister of marine, has tabled a bill providing for an annual credit of \$7,000,000 for a period of nine years to be used exclusively in building up the Spanish fleet. Over the provisions of the bill it is intended to develop the fleet as armaments so as to avoid having to use foreign builders in constructing battleships. The minister of marine expects that a battleship to be laid down in 1917 will be built by Spain by Spaniards and with Spanish materials.

Japan Will be There—The Japanese government has informed the state department that it has decided to participate in the international conference on the Pacific Islands, which is to be held in Manila, Philippines, in 1918. The Japanese government has also decided to participate in the Panama-Pacific exposition at San Francisco.

300 MILES AN HOUR

Latest Story of Miracles of Science

Come From France

The London Standard and Express devote considerable room to descriptions of the latest miracle of science shown in a very secret building in London. The building is the work of a Frenchman, long resident in America, who has taken a special interest in the subject of speed. He has a system, permitting of a speed of 300 miles an hour. The cars are made of metal, with a special material, making them aerodynamic, and are situated under the track, holds the cars, which are successively electrically magnetized, and the suspended cars, at a terrific speed.

This system, which is intended for goods and mail traffic, has been constructed at the cost of £200,000. The cost of laying the track would be £250,000 a mile plus \$60,000 for power houses at each hundred miles. The passenger cars would be fitted with propellers and motor similar to aeroplanes.

London to Manchester in 48 Min. The inventor suggests that it will be possible to do the present journey from London to Manchester in forty minutes. This would be done in four hours while the light and a half hour journey from London to Glasgow can be reduced to seventy minutes.

This system, which is intended for goods and mail traffic, has been constructed at the cost of £200,000. The cost of laying the track would be £250,000 a mile plus \$60,000 for power houses at each hundred miles. The passenger cars would be fitted with propellers and motor similar to aeroplanes.

PROBLEM OF ASSIMILATION

Toronto Correspondent of "The Times"

Considers French Problem of Canada

The Toronto correspondent of the London "Times" writes in an article of a column and a half in length, on the subject of the French problem in Canada, in which what he calls the "imperial problem" is described. The article is a study of the French people and their attitude towards the English people in Canada. It seems to be the work of a Frenchman, and is a study of the French people and their attitude towards the English people in Canada. It seems to be the work of a Frenchman, and is a study of the French people and their attitude towards the English people in Canada.

The correspondent in support of his argument, draws attention to the fact that the French people in Canada are a distinct and separate people, and that they are not assimilating into the English population. He argues that the French people in Canada are a distinct and separate people, and that they are not assimilating into the English population.

The correspondent in support of his argument, draws attention to the fact that the French people in Canada are a distinct and separate people, and that they are not assimilating into the English population. HOT AND POOL ROOM

The Farmers' Hotel has moved to the **AMERICAN HOTEL** and everything is up to snuff. We make you happy inside!

POOL TABLES - CLEAN BEDS - GOOD EATS - PURE WATER

Best Meals Served the way you like them. We use only pure water from Greencastle Spring [Mike Doyle's farm.]

MEALS 30 Cents - TRY THEM

Open Day and night. **Hurry to the Joy Palace!**

E. BROWN, Prop.

Farmers Hotel Burns to Ground

Continued from Front page

played from the roof; and a bucket brigade put up a stubborn resistance inside the store. It was a great advantage that the building was covered with sheet tin, but even this became red hot in places and fired the building a dozen times. Always the flame was met and checked. Such few as could dare the oven-like heat between the two buildings with pails of water, poured it on the walk, which was blazing merrily. Finally, after an hour of hard fighting, in which the peltum of victory pointed first to the flames and then to the fatigued but determined townsmen, the hotel had burned itself out and the Swanby building was saved.

The hotel was built four years ago, and was the property of Thom Swanby. No insurance was carried, either on the building or on the furnishings, so that the loss of Mr. Swanby and of Mr. Scott.

The Little Giant fire engine performed splendidly, fully justifying the judgement of the Council of 1913 who purchased it. As one said, it paid for itself several times over, saving the town thousands of dollars.

There was plenty of water. A. S. Lockren's big cistern held until the fire was under control, and in compliance with Station Agent Brown's request, the C. P. R. brought up a tank of it from Salford.

Right at a critical time, a number of sparks fell on the hose. In one spot a large hole was burned and the section had to be removed.

All the business men in the vicinity of the fire removed their homes from the street, while the ladies whose homes were in the apparent path of the flames packed their household goods. Even so far away as Broadway, nearly all the housewives made every preparation to get out at once.

Fires were started by sparks in Thompson's ice house, in the buggy rack back of Swanby's store, in the straw and feed near Scotland's barn.

COUNCIL MEETS

At the Village Council meeting Monday evening, there were many "should be's" and "ought to be's" — but only a few "shall be's."

The important matters brought up for consideration were taxes, and tax rates, the town well and sanitary conditions. It was decided to sink the well another ten feet at once, as the water supply at present is insufficient. F. E. McDiarmid was appointed to see to this.

Sanitary conditions came in for an amount of discussion. A number of backyards and manure piles "should be" cleaned up at once, but the council could not see their way clear to forcing it at present. Secretary Starr was instructed to notify those who had taken dead animals to the nuisance ground, to bury same at once. C. H. Wagner reported that he had requested Dr. McEwen to "pickle" the water tank as often as needed. Whenever possible this water should be used.

W. M. Cotter brought up the matter of town finances, and after some little discussion, it was decided to hold a special meeting next Monday night to go further into the matter and strike a tax rate for the coming year. There "ought to be" a tax enforcement law in operation now, so that all back taxes could be collected.

The matter of fire protection came up. Buckets will be purchased and the rest of the paraphernalia is to be housed at once, in the fire hall, with the engine and hose. There should be "a fire chief and brigade organized, but nothing was done toward it. Lockren's cistern is to be re-filled.

The following bills were ordered paid: A. J. Drummond, supplies, \$ 3.65 E. C. Hegy, mill valve and supplies, 4.46 V. E. Starr, assessor, 50.00 M. Doyle, water, 7.50 O. Frisley, draying, 5.70

in a wood pile back of the postoffice, and several other places. Even near Dr. McEwen's pharmacy, two and a half blocks from the fire, a young blaze was extinguished by J. H. Gasson, who happened along just the right time.

E. Brown, chef of the ill-fated Farmers Hotel, has bought out the American restaurant from N. W. Ellis, and will conduct the business.

LATING THE TABLELUTIN.

Work of Art in the Sixteenth Century.

In the twelfth century tablecloths were very large and were always laid on the table double. For a long time they were called "doublets" for that reason. The cloth was first placed so as to touch the floor on the side at which the guests sat; then all that remained was folded so that it just covered the table.

Charles V. had sixty-seven tablecloths which were from fifteen to twenty yards long and two yards wide. He had one cloth thirty-two yards long, which had the arms of France embroidered on it in silk. All these were fringed.

In the sixteenth century "doublets" were replaced by two tablecloths, one of which was small and was laid just as we lay ours today. The other, which was put on over it, was large and of beautifully figured linen. It was skillfully folded in such a way that as one chancier told, "it resembled a winding river, gently ruffled by a little breeze, for among very many little folds were here and there great bubbles."

Local News of the Week

The Methodist Ladies Aid will provide dinner and supper for any visitors to Carlstadt on July 13. See them at the church. Adults 35c. Children 25c. 3t

Dr. and Mrs. R. F. McEwen had as guests Sunday, Dr. W. J. McEwen and Dr. McLaughlin, who are dentists in Hamilton, Ontario, and are enjoying a tour through to the Coast. The company made an auto trip to Brutus to see the doctors' brother, W. H. McEwen, Sunday afternoon.

Sanford Leitch left Monday evening for Moose Jaw, near where he hopes to secure work for the summer.

Chas Wallace was at the Hat of Medicine Hat to prove up his Polonia homestead. J. B. Gray and Chas Gray were his witnesses.

E. Harris was at the Medicine Hat land office on Monday.

Dr. R. H. Mason had business in Medicine Hat on Monday.

A. G. Beatty, night operator at the C. P. R. station here, has been transferred to Gull Lake, Saskatchewan. He is succeeded by Mr. McCarthy, from Butte, Montana.

Dr. McEwen, who has occasion to "Fry" over practically the entire district, states that the insect crop he has seen are at Brutus, where the summer fallow gives promise of a good crop.

Miss Starr has been in charge of telephone central during the past week.

Mr. and Mrs. C. Coffey and Horace Mayne leave this week to be gone during the summer, as The Regal Sign and Photo Co. They plan to go first to Empress, and then work westward. A gaily painted covered wagon and buggy comprise their outfit.

Mrs. Orton Foughty was on the sick list last week.

A. J. Scott left for Redcliff on Saturday evening.

Mrs. H. B. Brigham and Mrs. Caleb Bell were in the Hat one day last week to see John Bell, in the hospital there.

W. Humphreys made a business trip to Medicine Hat Tuesday.

Miss Marion Benson, George Comley, and Euse Leitch are in Medicine Hat this week, to write on the entrance examinations on their completion of their eighth grade work.

Last Monday, Dr. R. H. Mason made a business trip to town and was the guest of Mr. and Mrs. F. J. Baskin.

C. H. Wagner spent Saturday in the Hat attending to business.

Richard Skramstad was in town today on his way to his homestead at Peavies. He says he has been spending the winter at his home in Cooperstown N.D. and that they have had lots of rain in Dakota.

IF YOU have something to sell or trade, advertise it in this column where almost everyone in the district will see it. Rates are moderate, too.

HOT AFTER WEEDS

H. W. Johnson, Provincial Weed Inspector, has been a busy man during the past week, inspecting the C.P.R. land west and south of Carlstadt. There are several farms there, that have reverted to the company, and on these there has been a large number of weeds. A wind from the west sends these weeds tumbling across the land of farmers who have been trying to keep their land clean and have caused no end of complaint. So Inspector Johnson has gone over the ground and made his report to the company. Close to 6,000 acres will have to be plowed at once, over 2,000 acres will have to be plowed as soon as rain comes, and 2,000 acres must be hand pulled. As this will mean an expense to the C.P.R. of approximately \$40,000, it is expected that they will be in no rush to attend to it, but Mr. Johnson states that he is going to make them get busy at once, or take it to court, and furthermore will do his best to clean up the whole country, outside the rural municipalities.

Having received a wire from D. A. Campbell, Superintendent of Agriculture, for the C.P.R., Mr. Johnson, went to Calgary Tuesday evening to have a conference.

H. G. Glenn, who has been employed on the P.C.S. ranch at Gleichen, is spending a time on his homestead at Tide Lake.

Buy it in Carlstadt.
